

## App Service Plan

```
graph LR; AI[Application Insights] <--> WA[WebApp]; WA <--> SS[SQL Server]; subgraph SS [SQL Server]; subgraph DB [SQL Database]; end; end
```

The diagram illustrates the architecture of an App Service Plan. It features three main components: Application Insights (purple box), WebApp (green box), and SQL Server (blue box). Application Insights and WebApp are connected by a bidirectional arrow. WebApp and SQL Server are also connected by a bidirectional arrow. The SQL Server component contains an inner light blue box representing the SQL Database.
